

Climate Financing by MDBs

UNFCCC Facilitative Dialogue on
enhanced ambition and support

Nov 11, 2016, Marrakech

MDBs 2015 Climate Finance

Figure 1: Total MDB Climate Finance Committed, 2015

Note: Dual benefit finance commitments are included in mitigation and adaptation finance values.

Additional USD 56 billion in cofinancing

MDBs 2015 Climate Co-Finance

Table 10: Climate Co-Finance Flows by Institution and Source, 2015 (in USD million)

	ADB	AfDB	EBRD	EIB	IDBG ^a	WBG ^b	Total Climate Co-Finance (Gross)	Total Climate Co-Finance (Net) ^c
Other MDBs	714	1,036	804	1,129	70	2,006	5,759	0
IDFC Members	541	217	198	1,105	300	1,101	3,462	2,412
Other International Public	257	495	509	22,724	—	5,815	29,799	28,602
Other Domestic Public	2,766	214	13	6,475	870	4,727	15,067	13,794
Private	1,160	121	2,683	1,386	18	6,745	12,113	10,941
Total	5,438	2,083	4,207	32,819^d	1,259	20,394	66,200	55,749

Note: Values may not add up to total because of rounding.

MDBs Contribution to Scaling-up Climate Finance

Table 1: Targets Announced by MDBs to Support Climate Action

MDB	Targets Announced
ADB	Doubling climate finance to USD 6 billion annually by 2020 (own resources only), of which USD 4 billion is for mitigation and USD 2 billion is for adaptation
AfDB	Triple climate financing to reach 40 percent of investments by 2020
EBRD	40 percent of EBRD annual business investment by 2020 in green finance ^a
EIB	Global target of greater than 25 percent of all lending. Increased target of 35 percent of lending in developing countries by 2020
IDBG	Goal to double climate finance to 30 percent of operational approvals by 2020 to an average USD 4 billion per annum, and to improve evaluation of climate risks and identify opportunities for resilience and adaptation measures
WBG	A one-third increase in climate financing, from 21 percent to 28 percent of annual commitments by 2020. If current financing levels are maintained, this would mean an increase to USD 16 billion in 2020. The WBG intends to continue current levels of leveraging co-financing for climate-related projects, that could mean up to an another USD 13 billion a year in 2020. The direct financing and leveraged co-financing together represent potentially an estimated USD 29 billion in 2020.
